As for travelers, we keep updating the latest information about those flowers on Facebook. We have a lot of pretty flowers, especially, narcissi in winter, cherry blossoms in early spring. Throughout winter to spring, we have a lot of different kind of blossoms there: white, pink and yellow, and it’s so beautiful. Because in this town, we can feel spring earlier than other places in Japan. You can find those flowers in the town. However, we have special spot for seeing flowers. For example, the best place for viewing narcissi is Ezuki Narcissi Rode, Okuzure Narcissi District and Sakuma Dam Lake. Then, the best place for viewing cherry blossoms is along Hota River and Sakuma Dam Lake.
